Project Testing Phase

Date	**29/9/2026**
Team ID	**SWTID-2026-5649**
Project title	**Implement Client Script & UI Policy(Incident)**

Project Testing Phase

The **Testing Phase** verifies that the UI Policy and Client Scripts for the Incident form behave correctly under different conditions. The testing focuses on mandatory-field enforcement, automatic urgency updates, read-only behavior, save validation, reverse conditions, and list-edit restrictions.

Testing Activities

Test Activity	Test Condition	Expected Result
1. Mandatory Enforcement Test	Set **Impact = High**, leave **Assigned To** empty, and submit	Incident should not save and an error should indicate that Assigned To is required
2. Successful Save Test	Set **Impact = High**, fill **Assigned To**, and submit	Incident should save successfully
3. Urgency Auto-Set Test	Change Impact to **High**	Urgency should automatically change to **High**

4. Read-Only Test	Set Impact to **High**	Urgency should become read-only
5. Reverse Condition Test	Change Impact from **High** to **Medium**	Assigned To should no longer be mandatory and Urgency should become editable
6. List Edit Blocking Test	Try to edit **State** directly from the Incident list	An alert should appear and the State value should remain unchanged
7. Form-Based Update Test	Change State from the Incident form and click Update	State change should save successfully

Testing Phase Flow

Create Incident → Set Impact = High → Validate UI Policy → Validate Urgency Auto-Update → Test Assigned To Validation → Test Save → Change Impact to Medium → Test Policy Reversal → Test List Edit Blocking → Test Form Update → Confirm Expected Behavior

Testing Outcome

The testing phase confirms that the configured **UI Policy, UI Policy Actions, onChange Client Script, onSubmit Client Script, and onCellEdit Client Script** work together correctly. This ensures that Incident records contain the required information and that unauthorized list-based State changes are prevented while legitimate form-based updates remain possible.
